

AIS 08.2011 Update

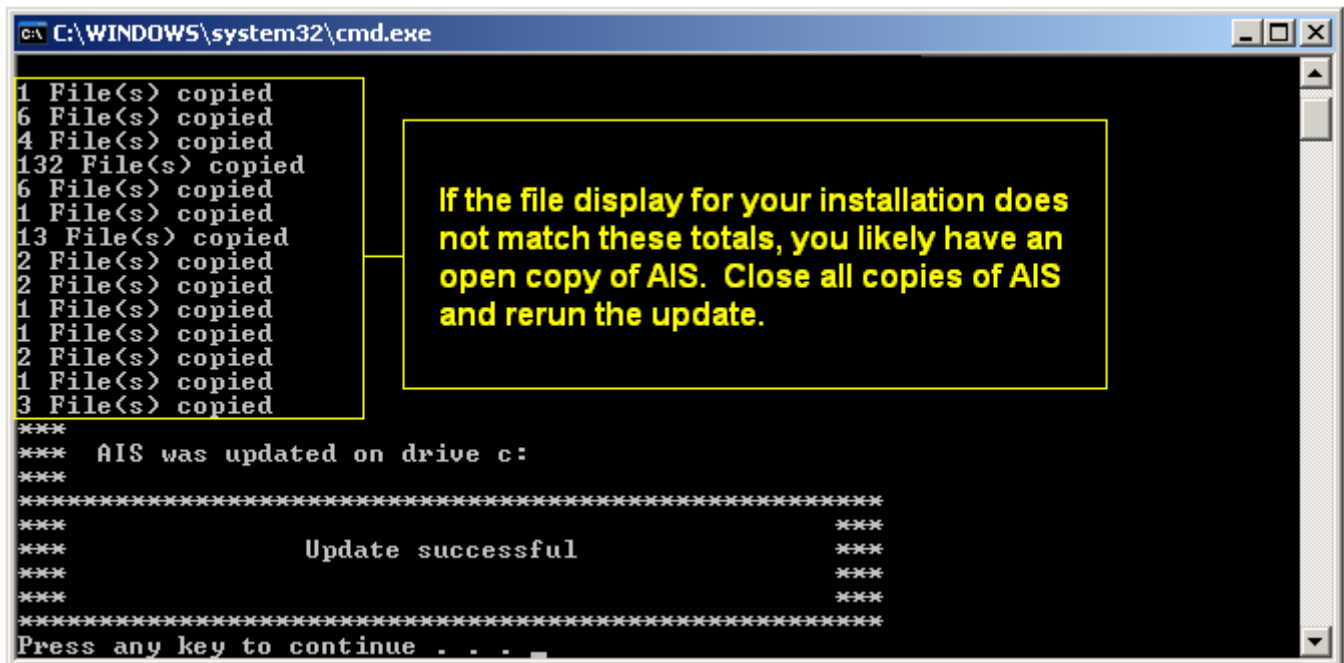

The AIS Windows 08.2011 update contains:

- Modified commodity tables
- A new feature for eligibility as per NAFDPIR Resolution 2011-03
- **THERE ARE NO BARCODE CHANGES WITH THIS UPDATE**

Installing

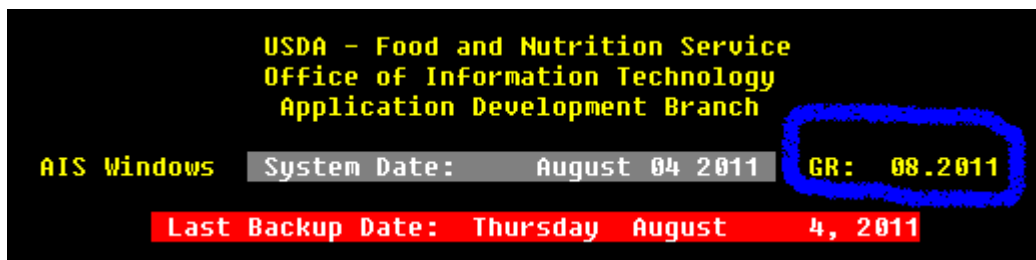

Click **Setup** to start the installation process. Make sure that there are no open copies of AIS on any computer on the network or the installation computer or the update will not complete properly.

Verify that the files copied totals match the display example above before pressing any key to continue.

When AIS is started the updated guide rate will appear as:

Commodities

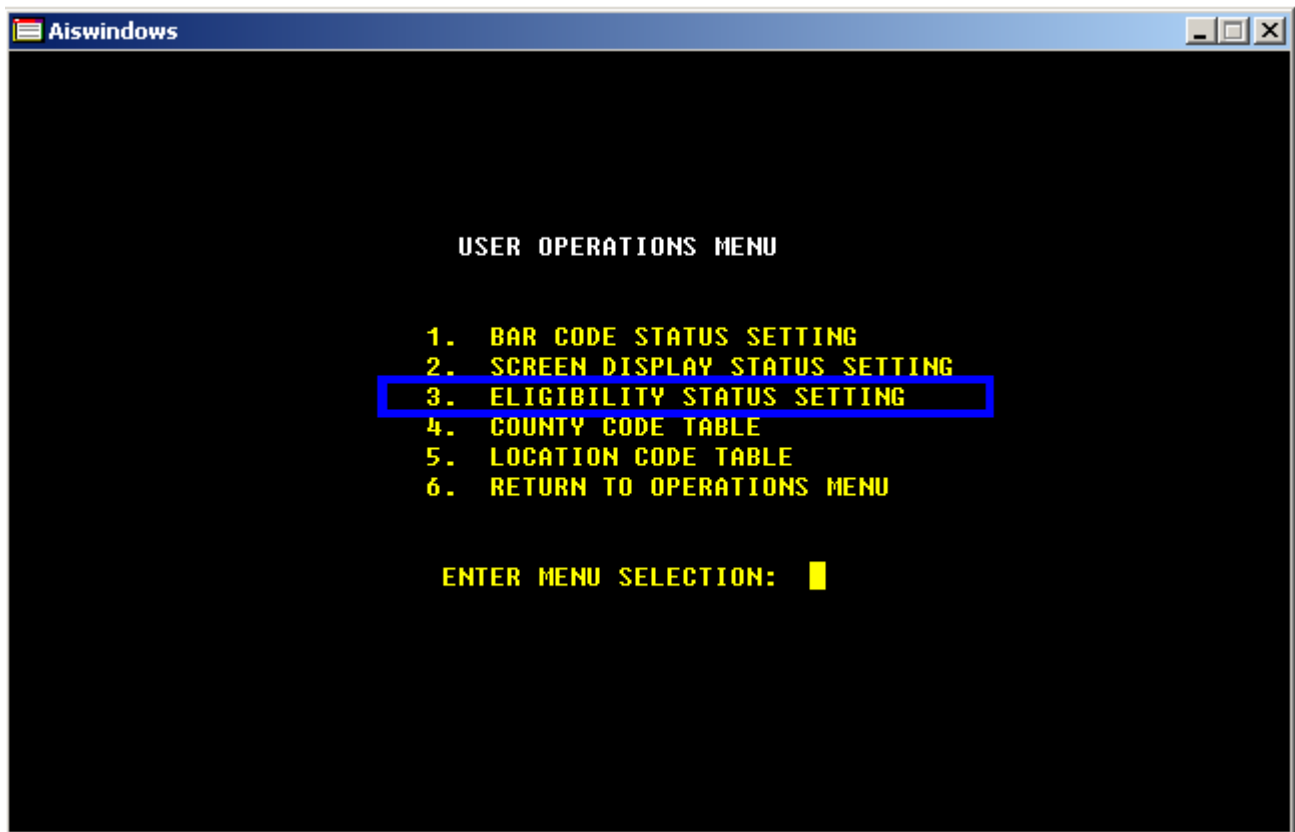

The following table defines the additional/modified commodity code settings in AIS:

Commodity Name	Units Pack	Commodity Codes	Material Code
Buttery Spread	12	B004	100921
Beef Roast	16	A613	100166

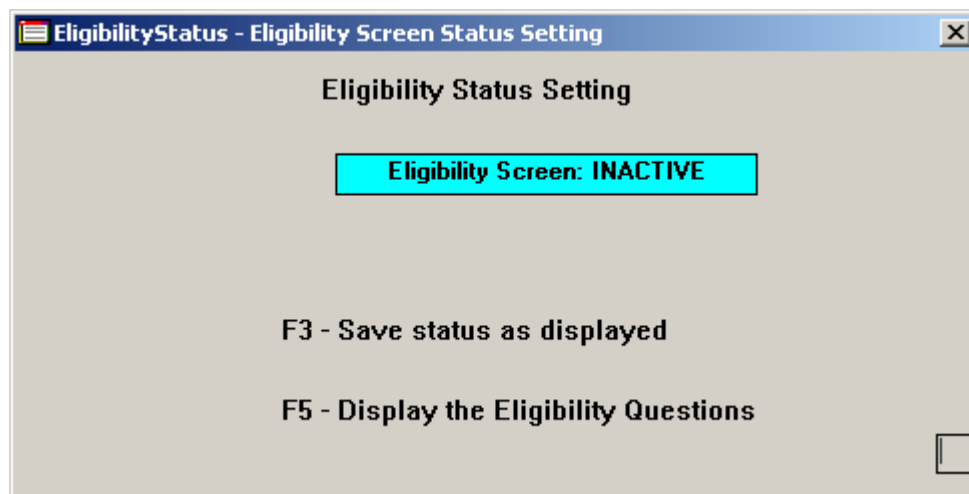

Numerous commodities were determined to be inactive.

New Feature

A new feature that can be activated by the user has been added to the User Operations Menu:

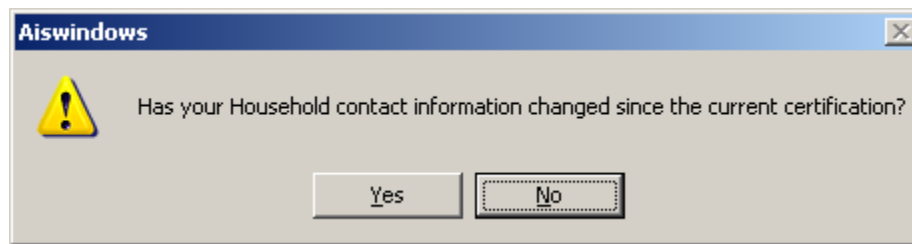

The activation of the ELIGIBILITY STATUS SETTING works as follows:

If the screen example above indicates INACTIVE then press F5 to make the display of the eligibility questions active.

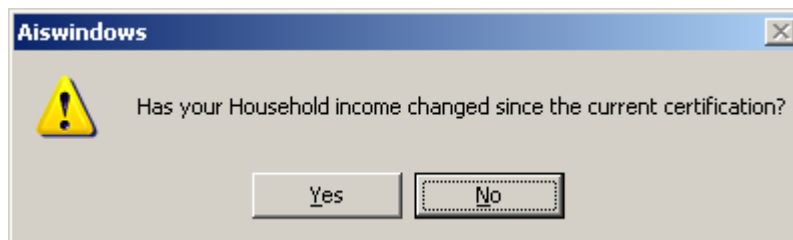

Whatever the value  or  pressing F5 saves it in the displayed mode. Pressing F1 or F5 toggles the status as indicated.

The following set of questions will display at ISSUANCE when the eligibility screens are active:

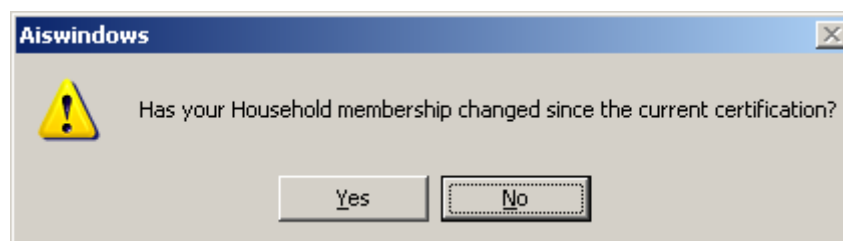

Aiswindows

Has your Household contact information changed since the current certification?

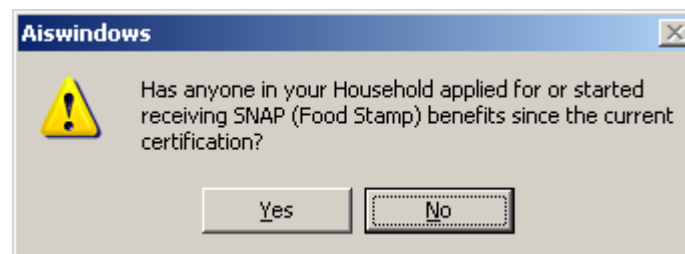

Aiswindows

Has your Household income changed since the current certification?

Aiswindows

Has your Household membership changed since the current certification?

Aiswindows

Has anyone in your Household applied for or started receiving SNAP (Food Stamp) benefits since the current certification?

Any YES response returns the user to the ISSUANCE MENU.
